- 2 On/off button
- 3 Variable power switch
- 4 Bag full indicator
- 5 Auto cord rewind
- 6 Carry Handle
- 7 Post-motor filter cover
- 8 Parking slot
- 9 Plug
- 10 Wheel

- 11 Top cover
- 12 Pre-motor filter
- 13 Paper dust bag

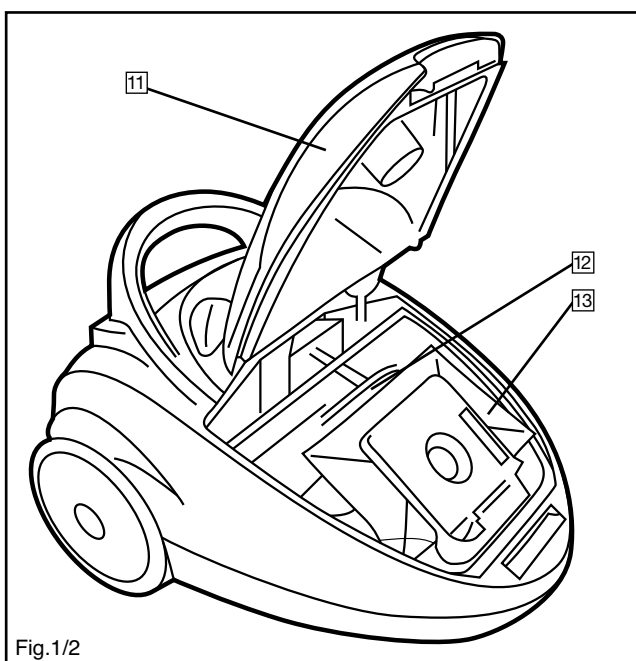

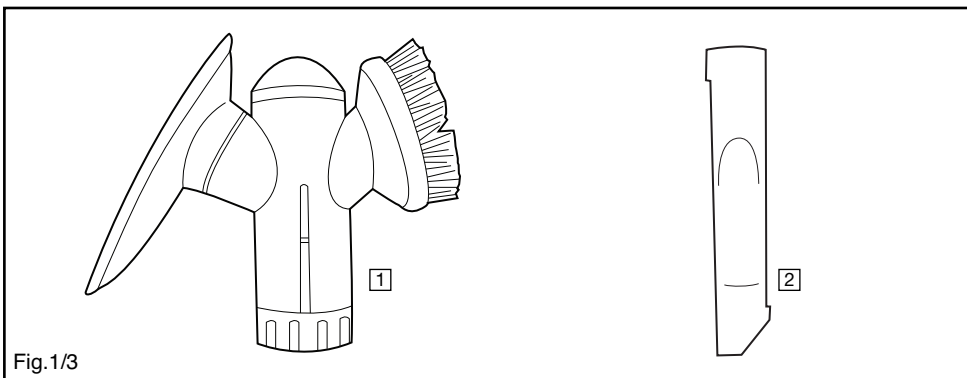

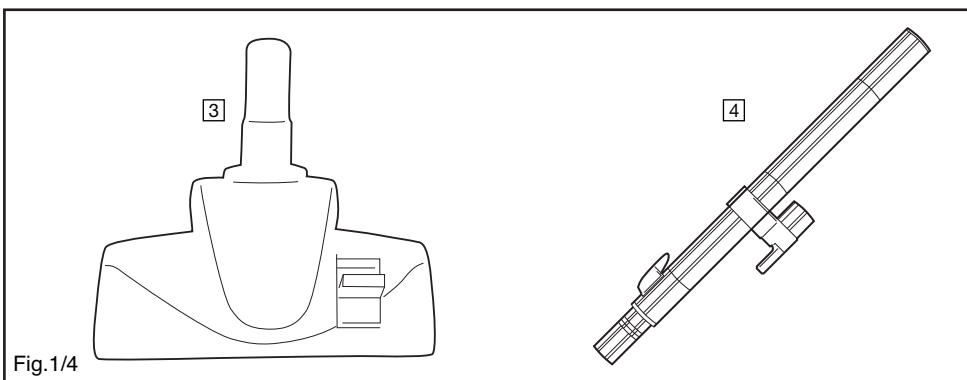

Fig.1/2

Accessories

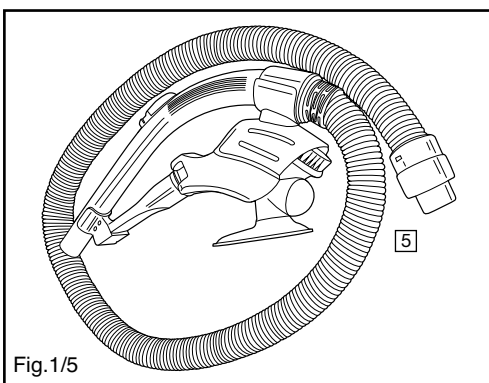

1 Twist tool

2 Crevice tool

3 Combination floor tool

4 Telescopic extension tube

5 Flexible Hose

Safety Information

2. Safety Information

FOR HOUSEHOLD USE ONLY

When using the vacuum cleaner, basic safety precautions should always be observed, including the following:

1. Only use the vacuum cleaner indoors on dry surfaces.
2. Turn off the vacuum cleaner controls before connecting or disconnecting from the mains supply.
3. Always unplug the vacuum cleaner before connecting or disconnecting the vacuum hose and accessories.
4. Close attention is necessary when used by or near children. Do not allow children to use as a toy.
5. Use only as described in this manual. Use only the manufacturer's recommended attachments.
6. Do not use the vacuum cleaner if it has been dropped, damaged, left outdoors or dropped into water. Do not use the vacuum cleaner with a damaged cord or plug. If the supply cord or plug is damaged, return the vacuum cleaner to a Vax Authorised Service Agent or suitably qualified person for examination, repair or adjustment.
7. Do not pull or carry by the cord. Do not use the cord as a handle, close a door on the cord or pull the cord around sharp edges or corners. Do not run the vacuum cleaner over the cord. Keep the cord away from heated surfaces.
8. Do not handle the plug or vacuum cleaner with wet hands. Do not use outdoors or on wet surfaces.
9. Do not put any objects into openings. Do not use with any openings blocked and do not restrict air flow. Keep all openings free of dust, lint, hair or anything that may reduce airflow.
10. Keep hair, loose clothing, fingers and all parts of the body away from openings and moving parts.
11. Do not pick up hot coals, cigarette butts, matches or any hot, smoking or burning objects.
12. Do not pick up flammable or combustible materials (lighter fluid, petrol, kerosene, etc) or use in the presence of explosive liquids or vapours.
13. Do not vacuum up harmful or toxic material (chlorine bleach, ammonia, drain cleaner, etc).

14. Do not vacuum up hard or sharp objects such as glass, nails, screws, coins, etc.
15. Do not use without the filters in place.
16. Take extra care when vacuuming on stairs.
17. Keep vacuuming area well lit.
18. Store the vacuum cleaner indoors in a cool, dry area.
19. Turn off the on/off switch before unplugging the vacuum cleaner.
20. Use only CE-approved 13 amp extension cords. Non-approved extension cords may overheat. Care should be taken to arrange the cord so that the cord cannot be pulled or tripped over.

WARNING: Always switch off and unplug the vacuum cleaner from the electrical outlet before assembling, opening or emptying the dirt container, or before connecting/disconnecting the attachments.

CAUTION: The vacuum cleaner is a very powerful unit. Before plugging the cord into the electrical outlet, make sure the switch is in the 'off' position. Hold the vacuum cleaner firmly when starting and in use.

IMPORTANT: If the inlet, hose or telescopic tube is blocked, switch off the vacuum cleaner and remove the blockage(s) before re-starting the vacuum cleaner.

IMPORTANT: Washing filters improves vacuum performance. Make sure all the filters are completely dry before inserting back into the vacuum cleaner.

This vacuum cleaner is intended for household use only and not for commercial or industrial use.

PLEASE KEEP THESE INSTRUCTIONS FOR FURTHER USE.

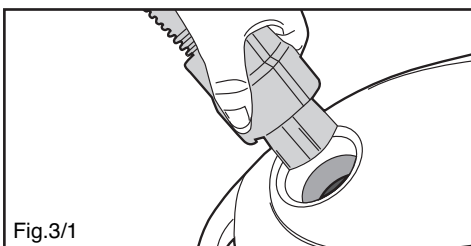

Motor Thermostat

IMPORTANT: The motor is equipped with a thermal cut-out. If for any reason, the vacuum cleaner should over-heat, the thermostat will automatically turn the unit off. Should this occur, unplug the vacuum cleaner from the electrical outlet and turn the unit off. Remove the dirt container and empty. Clean the filters. Allow the cleaner to cool for approximately one (1) hour. To re-start, plug into an electrical outlet and switch back on.

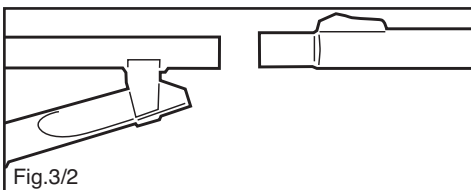

3. How to Assemble

IMPORTANT: Always unplug the vacuum cleaner from the electrical outlet before assembling or removing the accessories.

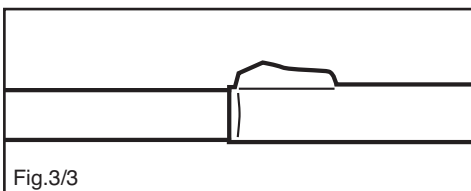

1. Insert the flexible hose into the inlet on the main body of the vacuum cleaner. Push in until it clicks into position (Fig.3/1).

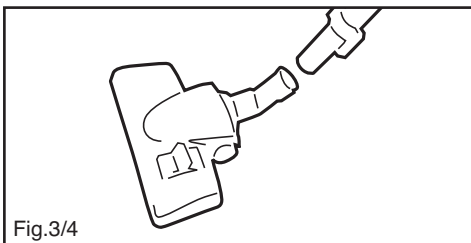

2. Push the telescopic extension tube on to the end of the handle (Fig.3/2).

3. The telescopic extension tube can be lengthened or shortened by pushing the button in and sliding the tube apart or together as required (Fig.3/3).

4. Fit the combination floor head by pushing onto the extension tube (Fig.3/4).

4. How to Operate

Cord Release

Fully unwind the power cord. A yellow mark on the power cord indicates the recommended cord length. Do not exceed the cord length beyond the red mark.

On/off Button

1. Insert the power plug into the electrical outlet. Make sure the vacuum cleaner is switched off.
2. Press the on/off switch located on the top of the vacuum cleaner, to switch on the vacuum cleaner and press the button again to turn the vacuum cleaner off.

Carpet Cleaning

For carpet and rug cleaning, press the rocker switch on the combination floor head to raise the brushes.

Hard Floor Cleaning

For hard floor cleaning, press the rocker switch on the combination floor head to lower the brushes.

Cord Rewind

To rewind the power cord, press the cord rewind button, located on the top of the vacuum cleaner, and guide the power cord with one hand. This will prevent the cord from whipping which could cause damage or injury.

Variable Power

Located between the on/off and cord rewind buttons there is a variable power dial. Slide this clockwise and anti-clockwise to adjust the suction power. The 5-stage indicator lights suggest the suction power for common tasks.

Carry Handle

Use the carry handle located at the rear of the vacuum cleaner to move from room to room.

Hose Storage

For convenience there is a slot located on the back and bottom of the vacuum cleaner where the floor tool and hose can be parked for carrying and storage.

5. Accessories

1. The accessories can be attached directly to the handle by removing the telescopic tubes and pushing in the desired accessory.
2. The accessories can also be attached to the telescopic extension tube for extra reach. Remove the combination floor head and push on the desired accessory.

Crevice tool: for crevices, corners and cracks, etc.

Twist tool:

Dusting brush: for delicate surfaces.

Upholstery tool: for carpet, upholstery, stairs, etc.

6. Dirt Container & Filters: Removal & Replacement

IMPORTANT: Always unplug the vacuum cleaner from the electrical outlet before removing the dirt container.

IMPORTANT: Do NOT use the vacuum cleaner without ALL of the filters in place.

IMPORTANT: The vacuum cleaner is equipped with a bag full indicator. If the indicator turns red, the bag will need to be changed.

Emptying the Dirt Container

1. Turn off the vacuum cleaner and unplug from the electrical outlet. Lift up the top cover to gain access to the dust bag compartment (Fig.6/1).

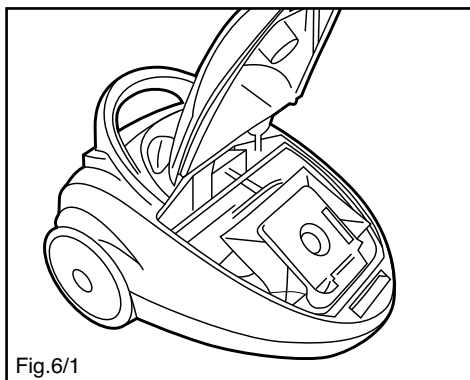

Fig.6/1

2. Push in the tab to unlock the bag from position and lift out (Fig.6/1).

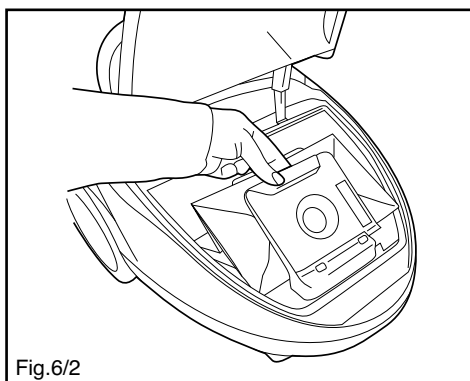

Fig.6/2

3. Dispose of the full dust bag and insert a new dust bag. Click into place, then close the top cover.

Pre-motor Filter

1. Turn off the vacuum cleaner and unplug from the electrical outlet. Lift up the top cover to gain access to the dust bag compartment.
2. Lift out the pre-motor filter situated at the back of the compartment (Fig.6/3) and replace with the new one.

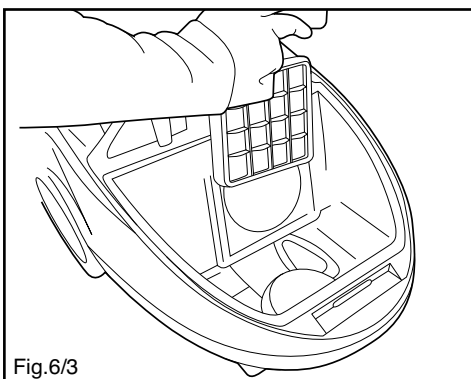

Fig.6/3

N.B.: Vax recommends replacing the filter after five bag changes or when it appears soiled.

Post-motor Filter

1. Turn off the vacuum cleaner and unplug from the electrical outlet.
2. Located at the rear of the vacuum cleaner is the post-motor filter. This can be removed (Fig.6/4) and replaced with a new one.

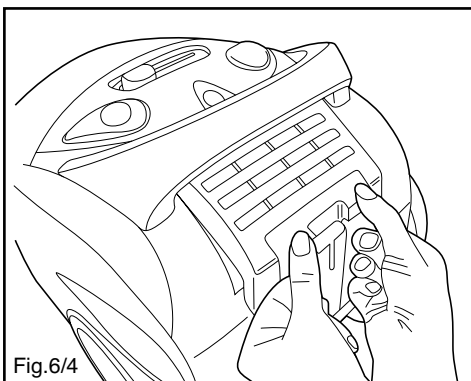

Fig.6/4

N.B.: Vax recommends replacing the filter every 4-6 months, when the bag has been emptied 5 times, when appearance is soiled or when loss of suction is experienced (whichever is sooner).

7. Clearing Blockages

WARNING: To reduce the risk of electric shock, the power cord must be disconnected before performing maintenance/troubleshooting checks.

1. Switch off the vacuum cleaner and unplug from the electrical outlet.
2. The flexible hose can be disconnected from the vacuum cleaner by pushing the button on the hose and pulling away from the machine. Remove any blockages found then reconnect the hose securely.

8. Storage

IMPORTANT: Always unplug the vacuum cleaner from the electrical outlet and rewind the power cord as directed before storing.

NOTE: Always store the vacuum cleaner base down.

9. Troubleshooting

WARNING: To reduce the risk of personal injury, unplug the vacuum cleaner before servicing.

PROBLEM: Vacuum cleaner won't run

Cause: Not properly plugged into electrical outlet.

Solution: Plug in firmly.

Cause: No electricity in the electrical outlet.

Solution: Check fuse or breaker.

Cause: On/off switch not turned on.

Solution: Push on/off switch to 'on'.

Cause: Motor thermostat has tripped.

Solution: Switch off and unplug the vacuum cleaner. Leave for one (1) hour before switching the vacuum cleaner back on.

Cause: Blown fuse/tripped breaker.

Solution: Reset circuit breaker or replace fuse.

PROBLEM: Cleaner won't pick up/loss of suction.

Cause: Dust bag not installed correctly.

Solution: Review dust bag removal and replacement.

Cause: Dust bag full or blocked.

Solution: Replace dust bag.

Cause: Clogged filter.

Solution: Remove clogged filter and replace with a new one.

Cause: Blockage in hose.

Solution: Disconnect hose, remove obstruction and then re-fit.

PROBLEM: Accessories won't pick up.

Cause: Accessories are not attached correctly.

Solution: Refer to section 5.

PROBLEM: Dust escaping from the vacuum cleaner.

Cause: Dust bag full.

Solution: Dispose of dust bag and replace with a new one.

Cause: Dust bag not installed correctly.

Solution: Review dust bag removal and replacement.

Cause: Hose not installed correctly.

Solution: Review hose installation.

Cause: Filter not installed completely.

Solution: Review filter removal and replacement.
